

IN THE SPECIFICATION

Page 4, in the line after line 19, insert the following new paragraph:

---

B. As shown in the figure, the insert piece 1 has the closed top end 2 and an open bottom end. The open bottom end is surrounded by the outer rim section 7. As also shown in the figure, the outer rim section 7 has a concave hollow longitudinal cross-section. The longitudinal direction being defined as the direction of a longitudinal axis of the insert piece 1 passing through the closed top end 2 and the open bottom end of the insert piece 1. As shown in the figure, the concave hollow longitudinal cross-section has an open end facing upwardly when the insert piece 1 is oriented to have the insert piece open end face downwardly.
